January 27- February 27: Who Am I? DNA Project

Mary and Jeff Bell Library’s first floor exhibit. Come see a collection of portraits, journal entries, and interview transcripts of the DNA Project Participants. These individuals explored their concepts of self through their family oral traditions – what they’ve been taught throughout their lives - versus their perceptions of self after taking a DNA test – who science says they are. Explore their stories, challenge your own beliefs and opinions; then ask yourself, “Who am I?”

February 24: Faculty/Staff vs. Students Basketball Game
