Think Tank Working Group

A "think tank" of representatives from the University has been formed as a working group by President Miller and administration. Staff Council is represented in this group. The purpose of this group is to examine current spending, structure, utilization of resources, etc. These ideas can range from ways to better utilize office supplies and inventory control to overall structure of the University. The group has been advised that there is "nothing off the table to consider." With that in mind, please email any ideas you may have to help reduce costs at staff.council@tamucc.edu.
